MISCELLANEOUS.

HOW STOKES RECEIVED THE NEWS OF THE STAY.—To fully understand the real meaning of the decision was made known on Saturday, young Horace Stokes, the brother of the prisoner, rushed from the court and then in hot haste to the tombs. The keeper seeing at the gate did not venture to stop him, and he hurried into the prison. It was easy to tell from his face that he had good news to give. At the entrance of the prison he was to cool down—stopped to gain breath and collect his thoughts before he could communicate the glad tidings to his brother. Meanwhile, two assistant keepers, who had heard that a stay had been granted, rushed into the prison by another way and succeeded in telling Stokes before his brother Horace could reach him. They say that a great change came over the man when he heard the great news. The blood rushed to his cheeks, and for a moment he staggered and almost fell; by a vigorous effort he soon collected himself, and taking up a cigar coolly began to smoke.

When his brother Horace arrived at the cell door he was prepared, and beyond a warm shake of the hand, not much feeling was exhibited by them. Horace Stokes, however, was greatly affected; his breast heaved and his flushed face told how deeply he felt the temporary escape. The poor boy seemed as if he could have fainted. He made a great effort to be the first to bring the good news, but his feelings were too much for him. When the brothers had met, Warden Johnson appeared on the scene. Walking up to the cell he said: "Well, I congratulate you; you have been granted a stay."

"Oh, it was no more than I expected from Davis," replied Stokes, but notwithstanding his assumed coolness it was evident that the new lease of life had struck him to the heart. Warden Johnson says that he is going to send Stokes to his old cell the moment he get official notice of the stay.

Seaman, the murderer of Donahue, happened to come out to meet his wife and children in the reception room just as the news that Stokes had been granted a stay came in. He appeared greatly delighted at the news. The prison officials all seemed pleased, and a general wish was expressed that Fearer be reprieved by the governor. Mr. Dos Passos and several friends waited upon Stokes during the afternoon. The statement is made that the effect of the decision will be a new trial for Stokes before a new jury. This is an error. It only says he is entitled that the points of the objection raised may be argued before the judges of the supreme court and decided. If decided then favorably to the prisoner a new trial will then be granted.

THURSDAY, FEBRUARY 27, 1873.

Our friends will confer a favor, by sending us facts of any matter of local interest which may come to their knowledge.

Correspondence concerning matters of public interest will be inserted, but we do not hold ourselves responsible for opinions expressed in such communications. All communications must be accompanied by the name and address of the writer.

All articles for publication, should be addressed to the Editor of THE DAILY NEWS.

The Pennsylvania Coal Company has announced an increase in the price of nearly one dollar per ton over the price of last March. The Reading and other coal transporting railroads have also advanced the rates of coal freights to this city. The prospect is that coal will range under these arrangements from one to two dollars per ton higher to consumers the coming spring and summer.

The Providence *Journal* this morning says:—The usual run of scrap commenced in the General Assembly, yesterday, the House Committee on fisheries having a hearing nearly four hours long, on the question of trap and boat seining. Mr. Rice, of Warwick appeared before the committee and gave about the same testimony as he has done heretofore, in favor of prohibition. Mr. J. T. Pitman made a long argument in favor of prohibition, quoting from the report of Prof. Baird, United States Commissioner of Fish and fisheries, and commenting thereon, and the counsel to adjourned till Tuesday next, then to meet upon the rising of the House and hear the other side of the question.

News from the Arctic regions, by way of the Scottish Meteorological society, represents that last summer proved to be favorable for Arctic exploration. The fact will explain the silence of all the explorers, which has not been broken since the 16th of July, upon the supposition that the ice drifts were made unusually large by the great excess of heat and drifted southward in July, leaving an open sea behind them. Captain Hall's and the various other expeditions would doubtless have improved the opportunity to push boldly forward to the highest attainable latitude. As all the outstanding exploring parties were furnished with boats suited to just such a happy emergency, is is highly probable that one or more of them has progressed toward the pole beyond the utmost limit ever before reached.

GENERAL ASSEMBLY.

JANUARY SESSION AT PROVIDENCE

WEDNESDAY, Feb. 26.

The Senate passed unanimously the bill to take the old West Burying Ground in Providence, as a site for a new State House. The act condemns the tract of land bounded by Plane, Point, Beacon, Friendship and Plane streets, the title to which is to vest in the State forever, as soon as proper plats are made and filed in the office of the Clerk of the Supreme Court. Three Commissioners are to be appointed by the Supreme Court to decide upon the value of the land, and from their report an appeal is allowed to the Supreme Court. The bond of the city of Providence for $200,000 given for the Cove lands, is pledged and appropriated for the payment of the awards for the land. A communication was received from the Beneficent Congregational Society, offering to transfer their interest in this tract to the State for $101 752. The other portion of the tract is subdivided into such small lots that it is thought that few of the heirs of the owners will find it worth while to attempt to trace out their respective titles. The Senate finally agreed upon a bill prescribing the mode of selecting State beneficiaries in Brown University. A resolution extending the term of the Board of State Valuation until March 1, 1874, was adopted.

The House passed the bill to incorporate the Trustees of the Newport Industrial School, after inserting an amendment confining the institution to the city of Newport. A bill was passed relieving certain prosecuting officers from the necessity of giving surety for costs.

A PROBLEM FOR THE DOCTORS.—A man giving his name as Theobald Fabre was found recently in a deserted negro cabin near Augusta, Ga., with his throat cut from ear to ear, and both the œsophagus and trachea completely severed. As nearly as could be ascertained he had lain there for six days in that condition without nourishment of any kind. He was carried to the city hospital at Augusta when the terrible wound was sewed up, and he is now recovering. Fabre, in accounting for the wound which he bears, was somewhat incoherent and unsatisfactory in fixing the responsibility for the deed. On one occasion he said that while travelling along the road at night he was suddenly attacked by two men, knocked down and his throat cut, as previously described, and that he was unable to tell whether they were white or black men. On another occasion, he said that while travelling the road in daylight he was ordered to halt by a white man. Not obeying the order, he says that the man rushed upon him and cut his throat, leaving him lying in the road.

Under existing circumstances it would seem to be altogether legitimate to infer that the sufferer, in a moment of temporary mental aberration, probably caused by a lack of knowledge of his whereabouts had himself inflicted the wound in an attempt to commit suicide.

Fabre says that he is a native of Kehl, Baden, and lived in New York four years. He is a baker by trade and had set out from Charleston to go on foot to Tennessee when he lost his way.

AN INDIAN POLICY.—The Boston News suggests the following plan of remedying the Indian troubles: If government will stop fighting the Indians, and direct its military forces against the Indian agents with peremptory orders to excoriate, expatriate, and exterminate the whole tribe of remorseless thieves, there will be no more trouble with Capt. Jack and his modocs or with any other red men. Every day, news from the far West adds to the evidence that the Indians have been goaded on to rebellion by the rascally swindling of black-hearted pale faces who, as government agents, have enriched themselves by cheating the people they were sent to protect and comfort. We can't expect to civilize savages through uncivilized missionaries.

OF THE GENUINE OLD TYPE.—A love affair, of the genuine old John Rogers type, was developed at Branch Hill a small province on the little Miami Railway, furnishing for the good people there of a first class sensation. A German in the employ of Captain Carroll became enamored with a fair-haired Katrina, also a servant in the Captain's domestic establishment, and after the usual preliminaries—sitting beside the kitchen fire till midnight, with his feet buried in the ashes, and talking over his future prospects of establishing himself in a corner grocery some where, and in a few years owning every thing he could see—he confessed to having a tender spot in his head or heart for the fair charmer, and asked her to marry him. Arriving at this point the discussion became interesting to the enthusiastic Teuton, and he was impatient in his pleadings. The young girl took the negative side of the questions, she simply said 'No,' He still woed, but she would'nt, and the result was that the captain's man of all work immediately made up his mind that it must be marry or blood." The latter proposition seemed to him to be likely to be attended with the least difficulty, and it did not take him long to act. The last seen of the rejected lover was on last Saturday, and nothing in particular was thought of his absence on Sunday. On Monday a search was made, when he was found in the barn, a ghastly spectacle, with his throat cut, lying in his own gore. So far as could be ascertained there was nothing of a literary nature left behind describing the last hours of the aching heart, or giving any reason for the rash act, beyond the facts already recited.

NEW HAMPSHIRE

Much excitement prevails in Warner over the supposed defalcation of a former town collector and well known business man, who left town for the West a few days since in a suspicious manner. On examination of his books by the town authorities they show a deficit of about $4500. His friends believe him to be all right and predict his early return.

The terrible snow blockade on the Sugar river Railroad was broken on Monday. On Sunday a snow-plow was started from Bradford with four heavy engines, and was about seventeen hours reaching Claremont. To open the road from Bradford through the "cuts" to Newport was one of the toughest jobs of the kind ever accomplished on any New England line. The snow was fearfully deep and the wind sharp and cold. One of the worst places to get through was Morse's "cut," where Conductor Perry's train was nearly buried up for a night and a good part of a day. The railroad officials and employes are entitled to great credit for the perseverance and energy they displayed in breaking the "blockade."

Filly Brothers have identified the forger, Taylor, now in Haddam jail, as the man who passed the forged check upon them about a year ago. He is wanted in Worcester, Waterbury and other places.

As Wm. H. Chidsey, of East Haven, was going to mill, Saturday, dragging two of his children on a sled, he let the sled run down a long steep hill. Unfortunately the sled, with its precious freight, was turned out of the way, and went off a bridge at the foot of the hill, about eighteen feet high.—The children went into the river, but were rescued by their father and properly cared for at a neighboring farm house.

On Saturday a Hartford policeman was sent to find the wife of a man who was locked up for drunkenness. The officer entered the room, which is in a house on Front street, and found the woman lying in bed apparently asleep. The officer went up and shook her, when he was surprised to find that she was suffering from confluent small-pox. He lost no time in going to the gas-house, where he got into a gasometer and was fumigated. The woman died and was buried the same night.

SHIP BUILDING IN THE PROVINCES.—Our New Brunswick and Nova Scotia exchanges come to us filled with long accounts of the progress of ship-building in those provinces. Among the vessels now on the stocks is one at Maitland, N. S., which will register 2400 or 2500 tons, and among others nearly ready for launching we notice the ship Forrest, at Hantsport, which registers 1428 tons, besides a score or more of vessels with tonnage ranging from 600 to 1000 tons. The ship building in the provinces are monopolizing the business at the present time, and will probably continue to do so. In the meantime, our Congress looks calmly and supinely on.

THE ARTILLERY FAIR.—We learn that the gross receipts of the recent fair were $2,2 S. 33. The expenses reached $723 91 leaving a net profit of $1 485.42 a pretty good showing for the company and for the community.

STABBING AFFRAY ON SPRUCE STREET.—Between nine and eleven o'clock Tuesday evening there was a pretty serious fracas in a house on Spruce street occupied by Michael Costello and family, the news of which only got to police headquarters Wednesday afternoon so quietly and quickly was the disturbance begun and consummated. As near as can be learned a party of men had been to a wedding in that vicinity and on their way home stopped at Costello's house, where, upon entering, it is said an assault was made upon Costello with an axe. A daughter of the assaulted man aged about sixteen received a severe cut in the right arm from a knife which had been drawn by the father to defend himself with. Upon this, the assailants fled. The case seems to be quite complicated and though the alleged assailants are known, no arrests have yet been made.

MISCELLANEOUS.

Hymn for Lent.

BY HARRIET MCEWEN KIMBALL.

From feasts that perish turn aside
A little space,
O be the flesh indeed denied;
Our souls, an hungered, satisfied
With the sweet feast of grace.

Thou that did'st fast so long so sore,
For our poor sake,—
All ponds of earth's vast hunger bore,
Ere Thou to precious blood didst pour,
Thy blessed Body break!

O holy Jesu! hear our cry,
And give us strength
For love of Thee to mortify
The love of self till self shall die,
And leave us Thine at length!

A QUEER TRICK.—Our foreign exchanges say that an American adventuress, giving her name as Maria Graisdorge, has been arrested in Paris on the following charge of impudent and ingenious swindling: She appeared, well dressed and with a very handsome baby in her arms, at the house of wealthy Parisians, asking to see the proprietor. As soon as she was admitted to his presence she would rush at him, exclaiming "Frailty! wretch! villian! have I found you at last?" At the same time the handsome baby, having been trained for that purpose, would extend its little arms toward the astonished gentleman and cry, "Papa, dear papa." It may be imagined that "papa" preferred to give the swindler some money in order to make her leave the house. When she was arrested at her residence in the Rue Duviver, no fewer than seven trained babies were found in the house, also nine or ten thousand francs in money. Mlle. Graisdorg, upon being closely pressed by the examining magistrate, confessed that her real name was Oaks; that she was a native of New York, and that she had been before at the St. Lazare prison. The Paris authorities found her guilty, and she was sent for seven years to New Caledonia.

THE COAL STRIKES IN SOUTH WALES.—There is good reason for the "deep gloom" which, according to cable advices, pervades the mining districts of South Wales. The looked for compromise has, for some unexplained reason, fallen through, and the seventy thousand miners are still "out" on strike. Their families are in bitter need, and it is difficult to tell where the matter will end. The difficulty is one of peculiar importance to Great Britian at the present time. Smitten suddenly with severely cold weather, the poorer classes are unable to obtain adequate supplies of fuel to protect themselves from it. The price of coal has more than doubled, rising to $14 and $15 a ton. And now the protracted inactivity of the extensive mines of South Wales diminishes the sources of supply, and the prices of coal are likely to go indefinitely upward. It is a serious matter for the English poor, and upon whomsoever the responsibility of prolonging the South Wales difficulties rests the guilt is heavy and inexcusible.

USE OF A RECEIPT.—In the city of Halifax there dwelt a lawyer, crafty, subtle and cute as a fox. An Indian of the Micmic tribe, named Simon, owed him some money. The lawyer had waited long for the tin. His patience at last gave out, and he threatened the Indian with law suits, processes and executions.

The poor red man got scared and brought the money to his creditor.—"The Indian waited, expecting the lawyer would write a receipt.

"What are you waiting for?" said the lawyer.

"Receipt," said the Indian.

"A receipt," said the lawyer, "receipt; what do you know about a receipt? Can you understand the nature of a receipt? Tell me the use of one and I will give it to you."

The Indian looked at him a moment and then said:

"S'pose maybe me die; me go to heben; me find the gate locked; me see the 'great Paten;' he say 'Simon, what you want?' Me say, 'want to get in;' he say, 'you pay Mr. J. that money?' I had to hunt all about h—ll to find you!"

He got a receipt.

The Inquirer of the Public.

Do you ask the question. Each school of medicine has its own theories, and as three theories differ widely, it is clear that few, if any of them, can be right. But if medical men cannot settle upon any theory or system of practice, the public find no difficulty in arriving at notorious matters of fact. For instance, they have observed for many years that Hostetter's Stomach Bitters uniformly cure dyspepsia, constipation, rheumatism, bilious ness, nervousness, and many other diseases which the prescriptions of the best physicians do not and cannot cure; and they know therefore that there can be no mistake about it. On this point they are firm and positive. They take their stand on incontrovertible facts, and the same to you and her publicly, and sometimes by letter, what they know with a believing and preventing sickness with the standard vegetable tonic and alterative of America.

Here, then, the invalid has a guaranty of value that can be had upon no other testimonial to the public. After twenty years of observation and collection, the American people pronounce Hostetter's Bitters the best invigorating and regulating medicine at their command, and give evidence of the faith that is in them by purchasing more of it than of any other advertised medicine manufactured on this continent. A large number of physicians do not scruple very much how many diseases their patients die of, provided they do it according to fashionable etiquette, and use only remedies in common use in the profession. But the Bitters are a specific of a different nature, and as nobody's interest depends on it, it is not at a loss.

CONSUMPTION CAN BE CURED

SCHENCK'S PULMONIC SYRUP,
SCHENCK'S SEAWEED TONIC,
SCHENCK'S MANDRAKE PILLS,

Are the only medicines that will cure Pulmonary Consumption.

Sometimes a medicine that will stop a cough will often occasion the death of the patient. It locks up the liver, stops the circulation of the blood; deranges the bowels, and in fact clogs the action of the delicate organs that control the cough.

Dr. Schenck's Pulmonic Syrup cures the causes of such. Nervous and dyspeptic patients, many of whom are now complaining with a dull pain in the side, the bowels sometimes costive and sometimes too loose, tongue coated, pain in the shoulder blade, feeling sometimes very restless, and other times drowsy; the food that is taken lies heavily on the stomach, accompanied by acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach or a torpid liver. Persons so affected, if they take one or two bottles of this medicine, and if the cough in those cases be suddenly stopped, the liver, liver and stomach cure, and secure vigor and exercise, and become the patient in search of his situation, the lungs unconscious of series, and never afterward, and death be far in vain be sent.

Schenck's Pulmonic Syrup is an expectorant which does not contain any opium, nor anything calculated to check a cough suddenly.

Schenck's Seaweed Tonic dissolves the food, mixes with the gastric juices of the stomach, thoroughly, mingles the system, and creates a healthy circulation of the blood. When the bowels are costive, constipated, and the patient of a bilious habit, Schenck's Mandrake Pills are required.

These medicines are prepared by Dr. J. H. SCHENCK & SON, Northeast corner of Sixth and Arch streets, Philadelphia, and for sale by GEO. C. GOODWIN & CO., 38 Hanover street, Boston, and by all Druggists. Feb. 1 d&w 1y

The Royal Insurance Co.

THE American "Exchange and Review," in its insurance department, while speaking of the Boston Fire, says:

"The Royal was in a good position, with ample preparation for the emergency which has come. Its relative standing, or record this company, and from the present urgency I will build more rapidly and greatly than ever. A telegram from the chief headquarters, Liverpool, announces the Royal's profit for the year up to Nov. 9, as 750,000."

THE ROYAL INSURANCE COMPANY is one of the OLDEST and STRONGEST in the WORLD. Its rates are no higher than those charged by the small pay and weak institutions which are sure to fail in them when they are needed. Its assets are over $11,000,000.

LONDON, Feb. 26.—The steamship Grecian from Liverpool for Palermo with forty hands on board is supposed to be lost.

Sir Rowland Stephenson is acting as mediator between the masters and men in South Wales for the settlement of the strike. The Dowlars Company yesterday extinguished the fires in their furnaces. It is probable that the coal mines in North Wales will strike in a fortnight if an increase of wages are not given. The mining districts are quiet.

Mr. Vickers, for a minority consisting of himself, submits a long report against the constitutionality and expediency of the proposed measure.

THE SOUTHERN CLAIMS COMMISSION.

The conference committee on the bill extending the southern claims commission, which expires by limitation Tuesday next, have agreed to a bill continuing the commission for four years, and limiting the time for the filing of claims to the 4th of March, 1873. Newport Daily News.

TUESDAY, FEBRUARY 27, 1872.

THE AMERICAN BAPTIST MISSIONARY UNION has, in its different missions in Burmah, Assam, India, China, Japan, and Africa, 325 churches, 21,000 communicants 500 native preachers, 140 schools, and 5 600 pupils. It has, also, missions in France, Germany, Sweden, Spain and Greece In Germany and Sweden their missions are very successful. In the former, they have 20 000 members.

SPIRITUALISM.—Like the measles this subject breaks out afresh in the English metropolis every little while, and is epidemic there just now, long articles, pro and con, appearing in the London daily papers. The disease is very scarce in this country at present, banjos and tea tables being uncommonly quiet. They have a little touch of ghosts down in Newburyport, but that don't count.

Josh Billings was asked, 'How fast does sound travel?" His idea is that it depends a great deal upon the noise you are talking about. "The sound of a dinner-horn, for instance, travels half a mile in a second; while an invitation tew git up in the morning I have known to be 3 quarters uv an hour goin' 2 pair of stairs, and then not hav streng'h enuff left to be heard."

DON'T

Be deceived, but for coughs, colds, sore throat, hoarseness and bronchial difficulties, use only

WELLS' CARBOLIC TABLETS.

Worthless imitations are on the market, but the only scientific preparation of Carbolic Acid for Lung diseases is WELLS' CARBOLIC TABLETS, combined with other well known remedies, for these troubles, and all parties are cautioned against using any other.

In all cases of irritation of the mucous membrane these TABLETS should be freely used. Both cleansing and healing properties are astonishing.

If neglected, *never neglected a cold*, it is easily cured in its incipient state, when it becomes chronic the cure is exceedingly difficult; use Wells' Carbolic Tablets as a specific.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure them as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

THE OLD HARTFORD.

THE Hartford Insurance Company has just made its ONE HUNDRED AND TWENTY-FIFTH Semi-Annual report, which shows the condition of the Company on the first day of January, 1873, as follows:

Total Assets, - -	2,201,308.54
Total Liabilities, - -	128 103.25
